ORDER:-

In the letters read above, the ENC (R&B) Admn & SR, Hyderabad has submitted the details of the following road works as follows:

**1.Widening and strengthening of Peddapendyal-Punnel road from Km 0/0 to 22/250 (working reach Km 13/0 to 20/720) in Warangal District:**

The Peddapendyal – Punnel road is an important Major District road in the Warangal District having a length of 22.50 Kms. This road starts at Km 117/6 of Hyderabad – Bupalapatnam NH-202(New No. 163) and joins state Highway Rayapatnam –Kodad road at Km 146/8. This road will act more or less as bye pass to the Warangal town. All the heavy vehicular traffic which goes to Khammam will pass through this road as it is connecting two important roads NH & SH. This road will also serve for number of major villages. Apart from the regular traffic there is a pilgrimage centre situated at Inavole village which attracts so many tourists/pilgrims every day as the famous Lord Mallikarjuna (Shiva) temple is situated. The present traffic on this road is observed as 7240 PCUs /day. In view of the traffic intensity, it is necessary to widen the road to two lane.

**II. Improvements to Wardhannapet – Annaram road from Km.0/0 to 9/0 in Warangal District” for Rs.200.00 lakhs.**

It is submitted that the road from Wardhannapet to Annaram is a zp taken over road for a length of 20.03 Kms out of which the rod stretch from Km 0/0 to 9/0 is badly damaged which needs immediate strengthening. This road starts at Km 160/8 of SH Rayapatnam Kodad road and connects Annaram an important pilgrim center where “Annaram sheriff Darga” is located. The traffic in this road is heavy die to tourist/pilgrim inflow and it is necessary to strengthen the road in certain reaches of thid road from Km.0/0 to 9/0. Further the junction at Wardhannapet where this road meets the SH needs improvement due to level difference between this road and SH at the junction which was caused dir to construction of a HLB on the SH at Km. 160/6 by raising the RCL of the road. Hence, it is necessary to strengthen this road from Km. 0/0 to 9/0 and improve the junction at Km. 0/0 for smooth flow of traffic.

2. The ENC (R&B) SR, Hyderabad has certified that the stage-1 approval is not required as detailed investigation was completed and designs are finalized. No land acquisition and shifting of utilities are involved for taking up the subject work without interruption for the above two works.

3.
